

LEGISLATIVE ASSEMBLY HAS BEEN DISSOLVED

WHEAT EXPORT DURING MONTH IS FIFTH RECORD

Foreign Buyers Hold Off Until the Market is More Stable.

PRICE FLUCTUATIONS OVER WIDE RANGE

North American Overseas Shipments Amount to 5-12 Millions Per Week.

FORT WILLIAM, Ont., May 10.—(By the cable of report demand and the completed state of the elevator market, the average price of wheat from the head of the lakes has been small, according to the report on the movement of western crops during the month of April, issued by J. A. Trevel, statistician to the board of grain and food.

The opening of navigation, the report states, has been a quiet one, only a few cargoes of wheat being shipped in large quantities of oats, barley and flax.

Conditions relating to the movement of wheat, the report adds, "are generally the reflection of the stable condition of the Winnipeg and Chicago markets."

With prices fluctuating within a range of over 40 cents per bushel, the report states, it is hardly to be expected that overseas purchases will be very numerous. It is pointed out, however, that there is a little hope of a break in the balance of trade, as the wheat surplus until a more settled condition has been established.

With regard to prices, the report states: "The present statistical position is all in favor of the elevator importer, but there are many who see in the largely reduced winter crop an opportunity in the United States, together with the possibility of not more abundant spring wheat crops, the justification of higher prices."

The report continues: "The statistical position regarding the international position, it is important to note that with 15 weeks of the season still to go, it is provided for at an average rate of 15 to 16 million bushels here and over 15 million bushels there, and it is sufficient for 5 weeks' requirements. In fact, there are no longer any serious requirements in hand so that only a small percentage of the total requirements must be shipped from overseas sources."

As for India, the report adds, "the requirements for wheat from Australia, Argentina and North America are considerable, but the requirements for wheat from the United States are not so great."

As for the requirements for wheat from the United States, the report adds, "the requirements for wheat from the United States are not so great."

HINDEBURG'S RIVALRY IN MANITOBA IS HISTORIC TODAY

Discordant Notes Are Heard From Communist Quartets.

THOUSANDS PLAN TO GREET NEW PRESIDENT

Both Democratic and Centre Parties to Take Part in the Demonstration.

BERLIN, May 10.—Berlin will welcome President-Elect Von Hindenburg on his arrival here Monday. Several discordant notes are heard from the Communist parties, who are to be heard today in the Reichstag and in the streets, where the adherents of both radical parties are believed to be planning counter demonstrations of protest against the election of the president.

At the hour of his arrival, Centre parties will take part in tomorrow's ceremonies, and former Chancellor Paul von Hindenburg's rival for the presidency, Dr. Brüning, is expected to attend the demonstration. The intention of attending the demonstration ceremony in the Reichstag on Tuesday.

Field Marshal Von Hindenburg will be greeted along the march by 200,000 members of self-appointed Communist groups, who are expected to be present in large numbers. The march is expected to be a demonstration of protest against the election of the president.

At the hour of his arrival, Centre parties will take part in tomorrow's ceremonies, and former Chancellor Paul von Hindenburg's rival for the presidency, Dr. Brüning, is expected to attend the demonstration. The intention of attending the demonstration ceremony in the Reichstag on Tuesday.

Border Police Plan To Construct Tunnel Under Detroit River

Several prominent border people are interested in a plan to link up Windsor and Detroit by a double tunnel under the Detroit river. H. H. Miller, chief engineer, at the Windsor waterworks, who planned the project, says it can be built at a cost of \$10,000,000 and that it would be at least two-thirds cheaper to build than a bridge.

One of the tunnels is designed for auto-motive traffic and the other for street cars and pedestrians.

SHIPS OFFICER KILLED BY GAS EXPLOSION

Deck Hand and Cook of the "Trucilla" Are Seriously Injured.

OCURS AT BONNET SHELL TANK DOCKS

Flames Burst High Into the Air—Vessel is Partly Burned.

BARNET, B.C., May 10.—A vivid flame bursting fifty feet to the air from the former submarine-chaser "Trucilla" at the Shell Tank Dock, Saturday afternoon brought death to Harry Barker, engineer, and James J. Armstrong, deck hand, and Joe Lee, Chinese cook, to the Vancouver hospital suffering from severe wounds.

The presence of mind of R. G. Woulter, superintendent of the dock, saved the lives of the three men, who were in the shell tanks, which would have been destroyed by the explosion.

Disregarding the intense heat Mr. Woulter ran close to the "Trucilla" and ordered the fire extinguished on both ends.

The "Trucilla" was loaded for the export of the former submarine-chaser, which was being converted into a minesweeper.

"PLANT A TREE, THEN ANOTHER" IS SLOGAN FOR ARBOR DAY

It Is Estimated that 10,000 Trees Will Be Set Out This Week by Various Organizations Interested and by Private Citizens

Plant a tree, and then plant another. That is the motto of the Tree Planting Committee this season and the idea has caught on with great enthusiasm. It looks as if 10,000 trees will be set out this week by the various organizations interested and by private citizens.

Of native birch and evergreen 1-750 or 1,500 have been secured. The volunteers workers from districts within 10 or 20 miles of the city are being brought in for distribution of the trees.

The Horticultural Society, who is in charge of the campaign for the Tree Planting Committee will be at the delivery of the trees at the city hall.

About 500 trees have been delivered to date to school and church groups where arrangements have been made. There are also some 400 to be delivered for private citizens. The trees are being delivered by the committee in past years. This part of the work is being supervised by W. G. Gault, secretary of the Horticultural Society.

Tomorrow and the next day there will be some 750 trees to be delivered for replacing trees killed out on boulevard. Over 200 trees have been taken over the telephone greater part by Miss Gladys Trevelyan.

The increased interest also in the planting of flowers points to a big flower show this summer. A Dahlia show has been held in recent years in raising such varieties of this flower. The Horticultural Society has also seen a great boom and many people are having a special membership, not over 700 rose membership.

Clean up and paint up this Arbor Day.

CONSIDERS WEST IS ENTHUSIASTIC

Reinold Werrenath Thinks Western Audiences More Demonstrative.

"In the East, where good music is plentiful, audiences are not so demonstrative, but the further west I go the more enthusiastically they receive me," says Reinold Werrenath, world-famous baritone, who will sing at the Theatre this evening and during the next few nights.

Werrenath, who has made five trips to the Pacific Coast, is at present on his way to New York, after giving concert in Los Angeles, Portland, Seattle, Idaho, and Chicago, and then to New York.

"I am very much interested in the music of the West," he says. "I have heard of it and I have seen it. It is a very different kind of music from the music of the East. It is more demonstrative, more enthusiastic, and more full of feeling. I have heard of it and I have seen it. It is a very different kind of music from the music of the East. It is more demonstrative, more enthusiastic, and more full of feeling."

BACCALAUREATE SERVICE HELD FOR THE 1925 GRADUATING CLASS

Rev. Thomas Mitchell Delivers Address—Graduates Are Congratulated on Completion of Studies—Should be Considered as Milestone Rather than a Destination.

The baccalaureate address to the 1925 graduating class of the University of Alberta was held at the church of St. Thomas Mitchell, who delivered the address. The graduates were congratulated on their completion of studies and were urged to consider their graduation as a milestone rather than a destination.

The speaker, Rev. Thomas Mitchell, said that the graduates were entering a new phase of life and that they should be prepared to face the challenges of the future. He urged them to continue their education and to seek out the highest ideals in all their endeavors.

At their work, forging ahead with never a thought of success or failure, they were urged to continue their education and to seek out the highest ideals in all their endeavors.

The speaker said that the graduates were entering a new phase of life and that they should be prepared to face the challenges of the future. He urged them to continue their education and to seek out the highest ideals in all their endeavors.
